AMPHINICY TECHNOLOGIES

## Software that understands the satellite industry!

Who we are:

Amphinicy Technologies is a leading provider of complex software solutions and all-round software support for the satellite and space industry.

Our state-of-the-art products, built upon 20+ years of experience and innovation:

Blink

Innovative, ultra-fast and flexible software-based solution for EO telemetry acquisition with rich analytics and reporting capabilities

blink.amphinicy.com

monica
Monitor and Control Solution

Modern, robust and highly-scalable M&C that can be used as a turn-key solution or a framework to build tailored systems

monica.amphinicy.com

SatScout

Top-of-the-line mobile framework for satellite antenna installation and VSAT terminal on-site commissioning

satscout.amphinicy.com

Five important things about us:

5

- Unique company with excellence in software for satellite and space domain
- 20+ years of experience
- Long-lasting collaboration with major industry stakeholders
- Continuously growing expertise in trending segments
- Offices in Luxembourg and Croatia

More than 20 years of experience in all-round software-engineering services:

Following strict space standards (ECSS): System definition > Implementation > Integration > Testing (AIV) > Operations

Monitor & Control	Passive Satellite Ranging	RF Equipment Integration	Mission Operation Center	Ground Simulators
VSAT Certification	NMS Systems	X-Pol Management	Beam Roaming	Aircraft Tracking
Mobility Management	EO Telemetry Processing	In-Orbit Testing	Validation Services	GIS Visualisation
OSS Consolidations	Humanitarian Projects	Mobile Solutions	AIV Support	Content Distribution

Five main areas of focus:

- Monitor and Control of the ground segment
- Network Management Systems
- Earth observation real-time telemetry acquisition and analysis
- Mission operations for NewSpace
- Humanitarian applications: disaster recovery, eLearning, eMedicine
