AMPHINICY TECHNOLOGIES

Software that understands the satellite industry!

Who we are:

Amphinicy Technologies is a leading provider of complex software solutions and all-round software support for the satellite and space industry.

Our state-of-the-art products, built upon 20+ years of experience and innovation:

⊙ Blink

Up to 3 Gb/s throughput, flexible pure-software satellite modem for Earth Observation

BLINK.AMPHINICY.COM

monica

Robust & highly-scalable Monitoring and Control for the satellite ground segment, including cloud and IoT support

MONICA.AMPHINICY.COM

Five important things about us:

5

- A unique company with excellence in software for the satellite and space domain
- Long-term commitment and collaboration with major industry stakeholders
- Focused expertise in the ground segment (SatCom, EO, humanitarian, virtualization)
- Following high-security ICT and space standards
- Independent Software Vendor of Amazon Web Services (certified-ISV)

Experienced provider of all-round software engineering services:

Following strict space standards (ECSS):

System definition > Implementation > Integration > Testing (Assembly, Integration, Verification) > Operations

Monitor and Control   EO Payload Reception   Satellite Ranging   RF Equipment Integration

Mobile Beam Roaming   Secure Communication   Mission Operation Centers   Traffic Model Management

VOIP Management   Ground Simulation   VSAT Communication   X-Pol Management

Our focus areas:

- **Monitor & Control** and Network Management Systems for the satellite ground segment
- **Earth observation** real-time, high-throughput data reception and analysis
- **Secure SatCom** solutions
- **Virtualization of the ground segment**
- **Humanitarian applications:** disaster recovery, eLearning, eMedicine
