

AMPHINICY
TECHNOLOGIES

Software that understands the **satellite** industry!

Who we are:

Amphinicy Technologies is a leading provider of advanced software solutions and all-round software support for the satellite industry.

Our state-of-the-art products, built upon 25+ years of experience and innovation:

Wideband, flexible pure-software
satellite modem for Earth
Observation

BLINK.AMPHINICY.COM

Robust & highly scalable monitoring and
control solution for the satellite ground
segment, featuring cloud and IoT support

MONICA.AMPHINICY.COM

Why you should take note:

- A unique company with excellence in software for the satellite and space domain
- Committed to long-term collaboration with major key industry stakeholders
- Over 25-year expertise in the ground segment technologies, including SatCom, Earth observation, humanitarian applications, and virtualisation
- Following high-security ICT and space standards, including ECSS
- Certified Independent Software Vendor (ISV) for Amazon Web Services

Experienced provider of all-round software engineering services:

Following strict space standards (ECSS):

System definition > Implementation > Integration > Testing (Assembly, Integration, Verification) > Operations

Monitor and Control

EO Payload Reception

Satellite Ranging

RF Equipment Integration

Mobile Beam Roaming

Secure Communication

Mission Operation Centers

Traffic Model Management

VOIP Management

Ground Simulation

VSAT Communication

X-Pol Management

Areas of Expertise:

- **Monitoring & Control** and Network Management Systems for the satellite ground segment
- **Earth observation** real-time, high-throughput data reception and analysis
- **Secure SatCom** solutions
- **Virtualization of the ground segment**
- **Humanitarian applications:** disaster recovery, eLearning, eMedicine

Quality

Amphinicy Technologies pays special care to deliver solutions of absolute quality. We use systems for automatic and continuous quality monitoring, and our customers can verify the shape of their development at any time.
